

NATIONAL HEALTH COUNCIL

A STATEMENT TO ALL PRESIDENTIAL CANDIDATES

The lack of effective health care coverage is one of the most important issues facing our nation. Nearly 50 million Americans have no coverage at all! Many more have coverage that does not provide for their basic health and long-term care needs. The problem is especially acute for Americans with a chronic disease or disability — the people we represent. We urge you to propose specific solutions that guarantee effective and affordable health and long-term care coverage for all Americans.

John Walsh
President & CEO
Alpha-1 Foundation
