Annual Report 2007
Us TOO International, Inc.
Prostate Cancer Education & Support Network

Support
Educate
Advocate

A Year of Action
Us TOO's Mission

To communicate timely, personalized and reliable information enabling informed choices regarding detection and treatment of prostate cancer.

From the front cover

Support: Survivors from Lancaster, Ohio; Don Gardner, Bob Schewe, Doug Tenney, Bill Stevens & Keith Stought.
Education: Students Jack Haleva and Jack Hudspeth at Us TOO University in Austin, Texas, May 2007.
Advocacy: Us TOO Board Chair, Jim Kiefert, testifies before the FDA in Washington, DC, March 2007.
Prostate cancer today

- There is great hope with cancer today. People are diagnosed earlier and are living longer with cancer.

- Prostate cancer remains the most frequently diagnosed cancer in men and more cases of prostate cancer are diagnosed in men than breast cancer in women.

- Prostate cancer affects those close to the patient and the whole family is impacted.

- Those with a relative with prostate cancer and certain populations such as African Americans are at greater risk of having prostate cancer.

- Prostate cancer risk increases with age. The aging baby boomer generation is at risk now and over the next 20 years presenting the need for action now.

For Us TOO, 2007 was a year of action - increasing activity and building momentum.

- Based on the Us TOO Founder’s vision of “Sharing is Caring” and “Learning to Cope through Knowledge and Hope,” our history of peer support continues to be actively addressed.

- The Us TOO SEA Blue initiative continues our founder’s desire to bring Prostate cancer awareness and attention to the level of Breast cancer

- In 2007, our campaign announced, “As pink is to Breast cancer, blue is to Prostate cancer.”

*Based on our organization’s commitment to collaboration, this Annual Report shows our increasing efforts to work together and always expand our efforts to Support, Educate and Advocate.*
It is an honor and a privilege to have served as Chairman of the Board of Directors for the past three years and watch Us TOO grow to a vibrant organization guided by Board members who have prostate cancer or are directly related to a man with prostate cancer.

I have been an active support group leader for the past 15 years. I am also active at the state and national level in the policy and research areas, and I see so many areas of need. As Chairman of the Board of Directors of Us TOO International, the largest prostate cancer education and support organization in the world, I am pleased with our focus in 2007.

What makes Us TOO unique is the vast network of volunteer leaders. It became apparent to me early on in my tenure as Board Chairman how important it is to provide support and education for those willing to help people in their communities who are dealing with the impact of prostate cancer.

Over the last several years, Us TOO Board discussions and planning events helped us clarify our focus and in 2007 we saw increased implementation of important priority areas best summarized in our SEA Blue initiative. Some details of our activities are included in this document, but I would like to highlight some of them.

SUPPORT. In September 2006, we launched our first pilot test of a new concept to inform, educate and provide leadership training for volunteer leaders in a new program, the Us TOO University. It was a huge success. To build on this success we had TWO Us TOO university programs during 2007. A remarkable achievement.

EDUCATE. As we have in the past, we continued to develop new publications. In 2007, two new publications were developed to meet the needs of people recently diagnosed and those with advanced disease. These were supplemented by monthly HotSheets, two topical Burning Issues Supplements as well as the News You Can Use electronic newsletter.

ADVOCATE. With the leadership of Board member Harry Pinchot and advocacy committee chair Don Lynam, the Board took action to seek early access to experimental treatments for men with advanced disease. To this end Us TOO testified at FDA hearings, held congressional briefings, joined in a rally in Washington DC, helped form the Raise A Voice initiative and met with the Director of the FDA to discuss early access issues.

2007 was a year of substantial growth in support for support group leaders, education and in our advocacy efforts. Us TOO continued our focus on collaborations with other prostate cancer organizations and earned the respect of state and national agencies.

My sincere thanks go to our dedicated board members, the excellent staff and the local support group leaders who have worked together to achieve our goals.

Respectfully,

[Signature]
This is my third full year as President and CEO working in collaboration with Board Chairman Jim Kiefert. I want to publicly say thank you to all of the donors, volunteers, staff, consultants, vendors and collaborating organizations who have helped and supported Us TOO this year.

It was an exciting year and we have much to celebrate when looking back on 2007. I am so pleased to say our leadership team, put in place at the end of 2004, and the Board of Directors remained committed to Us TOO collaboration, growth and action for another year and we have developed important momentum as a result.

This was a year of important accomplishments. Us TOO took action on many fronts to implement plans, resulting in Us TOO’s greatest program expenditures in our 17-year history!

For example, in 2007 we expended our support, education and recognition of support group/chapter leaders, offering two Us TOO University sessions in Austin, Texas and in Chicago. In addition, one of Us TOO’s founding Board members, Ed Kaps, helped establish the Edward C. Kaps Hope Awards, announced in December 2007. This award was to acknowledge “An Outstanding Leader in an Us TOO Support Group Who Has Shown Unselfish, Dedicated Service to Prostate Cancer Survivors and their Families”.

In 2007 we were able to continue our Minority and Underserved Pilot Program, training volunteers to reach out and spread the word at the community level within high-risk populations. In addition, Us TOO developed and produced new educational materials for newly diagnosed people, as well as materials for those with advanced disease.

Building on the first Us TOO Advocacy Plan developed in 2006, Us TOO expanded our collaborations within the prostate cancer community and led in the formation of the Raise A Voice initiative. We dramatically increased our presence in Washington, DC, to advocate for the needs of men facing advanced prostate cancer. Us TOO was involved in testimony before FDA Advisory Panels, we met directly with FDA head, Andy von Eshenbach and we were actively involved in a Congressional Briefing.

In regards to increasing awareness, this annual report shows examples of our growing efforts to implement the Us TOO Mission:
• Our first communications committee was established.
• We launched the new SEA Blue campaign.
• A new partnership was created with the American Prostate Cancer Initiative and, as a result, the first Sneakers@Work day took place in June 2007.
• The Third Annual Greater Chicago Run, Walk ‘n Roll took place in downtown Chicago in September, prostate cancer awareness month.

As we approach 2008, we have much to feel proud of and we know there is still much to do in the years ahead. Thanks to all of you who are playing an active role in supporting Us TOO as we strive to accomplish our mission.

Sincerely,

[Signature]
This year saw the successful completion of the fourth year and beginning of the fifth and final year of Us TOO’s program, “Early Detection on Survivorship or Cancer in the Underserved Populations Program.” The reach of Us TOO’s multi-year partnership with the Centers for Disease Control (CDC) continued to broaden and deepen in 2007. Based on the success of developing outreach materials for the high risk African American community and the difficult to reach Spanish speaking population, we created a brochure for two other high-risk populations, American Indian and Alaskan Native men and their loved ones. Working with more trained volunteers and collaborating organizations, new records were reached as the program touched people in 17 pilot sites.
In addition to our monthly distribution of the Us TOO HotSheets newsletter, we created two new patient education booklets and two specially designed Special Burning Issues Supplements to the HotSheets.

**Our Special Burning Issues Supplements focused on**

- Highlights from the 2007 Multidisciplinary Prostate Cancer Symposium - February 21-24, 2007, Orlando, FL
- Prostate cancer and incontinence: coping strategies and treatment options

**Our new booklets addressed the following needs**

- Newly Diagnosed – *Pathways for Newly Diagnosed Prostate Cancer Patients*: This booklet is designed to help newly diagnosed patients and their loved ones learn about treatment options, potential side effects, and other important information.
- Recurrent and/or Advanced Disease - *The Prostate Cancer Playbook* speaks specifically to the issues, fears and information needs of patients and loved ones facing a rising PSA, recurrent or advanced disease.

**Us TOO International’s Online Reach**

In 2007, Us TOO International’s leading edge website experienced a sizeable increase over 2006. Specifically, in 2007 Us TOO International’s website experienced:

- 4.9 million total hits
- 551,474 visits with an average of 1,587 visits a day

**Online communities**

Prostate Pointers, administered by Us TOO International, continues to be one of the most active and popular prostate communities available online.

It features

- 14 focused & moderated topical mailing lists
- an event calendar
- and links to thousands of physician as well as lay-contributed web pages.

---

**A-Team Volunteers who assemble and mail the monthly HotSheet packets for all chapters.**

*Standing:* Terri Gibbons, Charles Luner, Bob Barinek, Maurine Barinek, Gene O’Callaghan, Jackie Koniezcka & Mike Kurey

*Sitting:* Gus Browne, Joe Jonish, Eve Malcolm & Tom Muldoon

*Not Pictured:* James Branch & Barb
The SEA Blue campaign is an awareness campaign to give more visibility to Us TOO’s mission and to prostate cancer during September, which is prostate cancer awareness month. For a few years, Us TOO has worked to give the volunteer chapter leaders more tools during September to raise awareness in their local communities. These tools highlight Us TOO’s focus on Support, Education and Advocacy – SEA, beginning in 2005 with Blue Wristbands featuring the letters “SEA”. The SEA Blue campaign is the next step.

In 2007, Us TOO also established its first communication committee, for the purpose of creating and delivering focused and consistent messaging and branding for Us TOO.

In addition, we acted on our commitment to strengthen and expand our collaborations across the prostate cancer community and beyond. As a result, Us TOO participated in radio and television opportunities, and we were well represented at the following events:

- American Urological Association (AUA) – Us TOO provided an exhibitor booth
- American Society of Clinical Oncology (ASCO) Prostate Cancer Symposium – Us TOO provided an exhibitor booth
- American Society of Clinical Oncology Annual Meeting – Us TOO also provided an exhibitor booth
- Southwest Oncology Group (SWOG) – Us TOO presented and provided an exhibitor booth
- Prostate Cancer Research Institute (PCRI) – Us TOO Facilitated three concurrent support groups daily during the conference and provided an exhibitor booth
- DoD (Department of Defense) IMPaCT meeting – Us TOO provided exhibitor booth and involved in activities
- Centers for Disease Control Program Conference – Us TOO’s Minority and Underserved Program presented a poster session, participated in a panel presentation and provided an exhibitor booth.
In 2007, we expended the number of awareness and fundraising events and activities with favorable results, showing growth and promise. Events included:

- Us TOO’s Second Annual Online Auction took place in May and June

- Sneakers at Work Day was launched by American Prostate Cancer Initiative during 2007 with Us TOO as a participating organization. The event took place the Friday before Father’s Day. Participating groups received a kit of awareness materials to promote the event to employees and pairs of blue laces to wear with their sneakers on the event day.

- For the second year, Us TOO was accepted as a member of the Health Service Charities of America (HSCA), allowing Us TOO to received Combined Federal Campaign funds.

- Us TOO’s Board of Directors create a Matching Challenge where all fund raised during a specified time period were matched by the Board members.
The 3rd Annual Greater Chicago Prostate Cancer Run, Walk 'n Roll, Chicagoland’s premier prostate cancer event, took place on Sunday, September 16th in Grant Park. This event, a vital collaboration between The Wellness Place and Us TOO International, received the largest response and the highest attendance to date! Sunshine and gentle breezes surrounded this special day which featured two running events, a 3K Family Walk, live music, and prizes.

Us TOO wants to thank all who made this event so successful. Specifically, we would like to thank event co-founder and 2007 event chairperson, Myrna Porter, Greg Bielawski (Us TOO Board), Russ Gould (former Us TOO vice-chairman and the leader of the Don Johnson chapter) who both served on the event steering committee, as well as the Us TOO and Wellness Place staff, all the Chicago-land Us TOO chapters, volunteers, staff and consultants, and each and every donor.
In 2007, we facilitated two successful and well-attended Us TOO University events in Austin, Texas and in Chicago. Each event was successful in large part due to effective partnerships with the local host communities and chapters.

Both events featured a community education educational symposium on Friday evening, with several terrific world-class medical experts, exhibitors, excellent food and topical breakout sessions. Topics included:

- Comprehensive Cancer Care
- Radiation Update
- The Power of Pomegranate
- Intimacy Solutions

On Saturday, the agenda included nine leadership training sessions on topics such as:

- Reaching Out & Growing Your Chapter
- Supporting Those Facing Advanced Disease
- Advocacy: Current Events & Key Resources

In keeping with Us TOO University’s motto, Learn. Laugh. Lead., participants were provided with timely and useful information, they had a terrific time, and returned home better prepared to confidently lead.
Expanding & Recognizing

In 2007, we welcomed 15 new chapters to the Us TOO International Network:

**EAST COAST**
- Us TOO National Naval Medical Center - Bethesda, MD
- Us TOO Living with Cancer - Meredith, NH
- Us TOO Mid-Hudson New York - Newburgh, NY
- Us TOO Terah Brown Pittsburgh East - Pittsburgh, PA
- Us TOO St. Vincent East - Birmingham, AL

**MIDWEST**
- Us TOO Western Kansas - Hays, KS
- Us TOO Little Company of Mary Hospital - Evergreen Park, IL
- Us TOO Lake Superior - Cloquet, MN
- Us TOO Mercy Health Center - Oklahoma City, OK

**NORTHWEST**
- Us TOO Boise - Boise, ID
- Us TOO Friday Harbor - Friday Harbor, WA
- Us TOO Skagit Valley - Anacortes, WA
- Us TOO Palouse - Pullman, WA
- Us TOO Whidbey Island - Coupeville, WA

**INTERNATIONAL**
- Us TOO South Africa - Johannesburg, South Africa

Acknowledging Leaders
In 2007, one of Us TOO’s founding Board members, Ed Kaps, helped establish the Edward C. Kaps Hope Awards, announced in December 2007. This award was designed to acknowledge “An Outstanding Leader in an Us TOO Support Group Who Has Shown Unselfish, Dedicated Service to Prostate Cancer Survivors and their Families”.

The Ed Kaps Hope Award
During 2006, the Us TOO Board of Directors affirmed an initiative to advocate for better access to new developing treatments for men with advanced prostate cancer. This initiative, Raise a Voice (RAV), is a powerful collaboration between a growing number of prostate cancer organizations. The objectives set out in 2006 were implemented in 2007 with many advocacy activities and partnerships.

Us TOO volunteers and staff have been actively working with the Raise A Voice coalition to increase access for people with advanced prostate cancer to new treatments. In 2007, this effort led to:

- Support for, and attendance at, two rallies (one in the Chicago area during the ASCO conference and the second in Washington, DC)
- A new webpage to raise awareness of the issues surrounding FDA approval of new treatments for advanced disease, such as Provenge
- A meeting with the FDA’s Dr. Andy von Eschenbach and FDA staff members
- Attendance at a Congressional staff briefing and press conferences.

Us TOO volunteers and staff also were active advocates working through collaborations with the National Health Council, One Voice Against Cancer and the Cancer Leadership Council which included:

- Us TOO volunteers attended Presidential candidate gatherings developed by the National Health Council to show support for improved and expanded health access in Iowa, Ohio, Florida and South Carolina
- Us TOO signed and placed the National Health Council’s open letter on the Us TOO webpage to show support
- Us TOO moved ahead with a survey of the Us TOO volunteer contacts on state advocacy issues and training needs. The survey fueled one of the Us TOO University training sessions.
We added the following new Board members (announced at the end of 2006) to begin service in 2007:

- **Stu Porter** is Managing Partner of Denham and brings over 21 years of senior investment experience to the firm. Stu’s father is a prostate cancer survivor and his mother is a breast cancer survivor. Stu and his wife, Susan, have two sons.

- **George Ledwith** is the Director of Corporate Communications for KPMG LLP, a major international accounting and consulting firm. George was diagnosed with prostate cancer in 2003. George and his wife, Elizabeth, reside in Wyckoff, NJ, and have a blended family of four sons and a daughter.

- **Ron Witherspoon** has worked for 25 years with General Motors, an electrician by trade. He has been a member of the Royal Oaks, MI, chapter of Us TOO since 2004, serving in a variety of leadership roles. Ron is a prostate cancer survivor, and his wife, Carol, is a uterine (endometrial) cancer survivor. Ron and Carol, married 39 years, have two children and seven grandchildren, ages 2-19.

- **Fred Mills**, also a survivor, has 30+ years experience as a health care executive and consultant, with proven leadership and results in various health care settings. Fred has been married for 43 years to Sylvia, and has 4 grown sons and 8 grandchildren.

At the end of 2007, the Board expressed appreciation, and said farewell, to:

- **Don Lynam**
- **Harry Pinchot**

In late 2007, David Houchins and Kay Lowmaster were invited to join the Board starting in 2008.

- **David P. Houchens**, has a PhD in microbiology and immunology from George Washington University. He currently serves as a Program Manager at the Battelle Memorial Institute in Columbus, Ohio.

- **Kay Lowmaster**, MSW, is Chapter Leader of the Us TOO Hillman Cancer Center Chapter, and Regional Director for Ohio, Pennsylvania and West Virginia. She is a licensed clinical social worker, and is the Community Outreach Program Coordinator at the University of Pittsburgh Medical Center in Pittsburgh, Pennsylvania.

### 2007 Staff

- Karen Bacher, Program Director
- Pamela Barrett, Development Director
- Elizabeth Cabalka, Consulting Program Manager
- Terri Gibbons, Executive Assistant
- Thomas Kirk, President & CEO
- Jackie Konieczka, Office Manager
- Dan Reed, Development & Marketing Coordinator
- Gene Wheeler, Minority & Underserved Program
  - CDC Consulting Program Director

---

The Us TOO Chapter Revenue and Expenses, for the most part, are not included in the Us TOO International, Inc. financial audit conducted by John Kopczyk, Ltd., Certified Public Accountants. The majority of Us TOO chapters are small community groups that do not solicit or raise funds. Reporting information was received from 82 chapters reporting for the calendar year 2007 ending December 31, 2007. The group in Houston reported revenues and expenses that appear in the 2007 audit.

The unaudited reports submitted by the chapters summarize the revenue and expense activity of their group. The compilation report was compiled from the 18 groups reporting income and expenses and was combined into a report by the Us TOO staff for management reporting purposes and are listed above. The accounting practices of the local Chapter groups are not necessarily the same practices followed by the Us TOO International office.

Although some may not be listed by name, we wish to say “Thank You” to the numerous people who ordered and used Us TOO blue prostate cancer items, contributed to Us TOO through the annual auction and Sneakers@Work, and those who donated to (and joined in) the Third Annual Greater Chicago Run, Walk & Roll. All of us who contribute time and resources to this worthy cause are vital to our continued growth and expanded reach.
For men and their families who fight and win this battle, day by day. We remember them, one by one.

For our loved ones; wives and partners, children and parents, grandchildren, extended family and friends. For their support, love, encouragement and care during times when we are not at our best. We remember them, one by one.

For heath care professionals and for all supporters, crusaders and allies in this battle; those whose work and dedication move us forward in the fight. We remember them one by one.

For men whose battles have just begun, and are preparing for the fight for their lives. We remember them, one by one.

For those who are dealing with the ravages of war; for those who live in hope, and for those for whom hope has began to fade. We remember them one by one.

For those who share their war stories and give us insight and hope, and sometimes even make us laugh. We remember them one by one.

For warriors who fought their battle as long and hard as their bodies could stand; their war now over, their legacies written in our hearts and minds. We remember them one by one.

We remember them all, one by one. May we never forget.
