Greetings,

We hope that you're doing well and enjoying the holiday season.

We're pleased to provide you with some of the latest **Prostate Cancer News You Can Use**. Titles of recent news articles are listed below followed by a link to the Us TOO web page that provides access to the full text. You may also be interested in the following information.

Us TOO and the Academy for Continued Healthcare Learning (ACHL) are collaborating to educate healthcare professionals and prostate cancer patients on **drug sequencing related to treating Castrate-Resistant Prostate Cancer (CRPC)**. If you are managing CRPC, please share your input on disease management and drug sequencing by participating in a confidential survey, which should take less than 10 minutes to complete. Survey results will help inform the development of educational content. [CLICK HERE to access the survey](#).

Men with CRPC and their caregivers are also encouraged to enroll in the **TRUMPET Registry** from Astellas and Pfizer. Patient information will be confidentially collected at routine medical visits and through health surveys to help guide treatment decisions in the future. [CLICK HERE for details](#).

Please join Us TOO for a **free educational webinar on Wednesday, 12/14/16, from noon to 1:00 pm ET**. We're partnering with Inspire in addition to Bladder Cancer Advocacy Network and ThyCa: Thyroid Cancer Survivors' Association, Inc., to present information about the importance of exercise while managing cancer. [CLICK HERE to register](#).

Us TOO is working with a trusted research partner to find men in the U.S. with **metastatic prostate cancer** to participate in a **60-minute phone interview** conducted by a research professional. The study is focused on patients' experiences with prostate cancer including the symptoms and impact of the disease. The number of participants is limited and those selected for the survey will receive a **\$100 Amazon voucher**. [CLICK HERE for more information](#).

If you haven't already done so, [please consider a tax-deductible DONATION to Us TOO for our holiday fundraising campaign](#). Thanks in part to your donation, Us TOO is able to provide educational resources (including this distribution of Prostate Cancer News You Can Use) along with support services to the prostate cancer community at no charge. Give the gift of HOPE to help others through the knowledge to make informed decisions about prostate cancer testing, treatment options and management of side effects. [CLICK HERE to read quotes of holiday hope](#).
