Greetings -

We hope that you're enjoying the spring season and that this compilation of **Prostate Cancer News You Can Use** finds you doing well. Below is a list of article titles in addition to a link to the Us TOO web page that provides access to the content for each news article.

Us TOO is hosting four [Community Conversations on Prostate Cancer](#) in 2016 as part of the ongoing series. These grassroots educational events address the importance of informed decision making for patients and caregivers specific to testing, active surveillance, treatment options for all phases of prostate cancer, and management of side effects.

If you plan to be in the neighborhood, please join Us TOO for the **Community Conversation on Prostate Cancer in Columbus, OH, on Saturday, May 21**. [CLICK HERE](#) for more program information and a link to the Columbus event flyer with all of the details. We'll also be in Austin, TX, on June 25; and in Detroit, MI, on September 24.

The SEA Blue Chicago Prostate Cancer Walk & Run event registration site is now live at http://www.ustooevents.org/site/R?i=CM1F3I-Wmo6mjEagPD_rQ. We've made the online event registration process easier this year by subscribing to a different software platform provider. **Use the code EARLYBIRD2016 (all caps, no spaces) to receive a 25% discount on all registrations through May 31**. Please let us know if you have any questions or would like any assistance. If you don't live in the Chicago area -- or are otherwise not able to attend -- but are still interested in fundraising for SEA Blue, please register as a virtual participant at no charge.

Michigan State University is conducting a study about online communication relative to cancer. They are requesting adult cancer survivors to complete a 30-minute survey and are offering a \$5 Amazon gift card to the first 200 participants. **Please [CLICK HERE](#) to take the survey**.

NEWS YOU CAN USE ARTICLES:

Headlines for this month's prostate cancer News You Can Use articles are as follows. [Links to the full text of each article are available at: http://www.ustooevents.org/site/R?i=ZOVA-SPPuo-GAXDbCO5E_Q](http://www.ustooevents.org/site/R?i=ZOVA-SPPuo-GAXDbCO5E_Q)
