Dear Friend,

You're invited to join Us TOO for a free Community Conversation on Prostate Cancer. This event is FREE and you are welcome to attend **in person** or **online**. It is a featured presentation at the **Sixth Annual Men's Health Event** at Ford Field in Detroit on Saturday, September 24. In the interest of providing more prostate cancer education and awareness, we'll address the importance of informed decision making for patients and caregivers specific to testing, active surveillance, treatment options for all phases of prostate cancer, and management of side effects. Hosted by [Us TOO International Prostate Cancer Education & Support Network](#), the conversation will provide attendees with an overview on prostate cancer, physician presentations, educational materials, survivor stories, and sponsor introductions.

Guest Speakers:

Dr. Jason Hafron, Urologist - Risk Factors, Diagnosis & Staging (10am - 12pm)

Dr. Elisabeth Heath, Oncologist - Treatment Options & Side Effects (1pm - 3pm)

For those who are interested in attending the Community Conversation but cannot make it in person, Us TOO will be broadcasting the event live online. To register for the free online broadcast, visit <http://www.ustooevents.org/site/R?i=7pZlIdswRjcDvOEkywqeA>.

Education about all phases of the disease is very important since prostate cancer is the most common cancer among men and accounts for nearly 30,000 deaths annually. But with informed decision making, the disease can be detected early and managed effectively.

Bayer Healthcare is the presenting sponsor for the Community Conversation on Prostate Cancer in Detroit. Additional sponsorship support is provided by Amgen, Genomic Health, Janssen Oncology, Astellas, Medivation, Boston Scientific, Cancer Treatment Centers of America, and Sanofi Genzyme.

We hope to see you there. Knowledge is power!

Please be sure to forward this email to your friends and family who may be interested in attending this important educational event.

All the best,

Chuck & The Us TOO Team
