

Prostate Cancer News You Can Use from Us TOO

Made possible by charitable contributions from [Astellas/Medivation](#) & [Sanofi Oncology](#).
<http://www.ustoo.org/> [Donate](#) | [View Message in Your Browser](#) | [Change Email Preferences](#) | [Forward to Friend](#)

Greetings,

We hope that you're doing well and keeping warm!

We're pleased to provide you with some of the latest **Prostate Cancer News You Can Use**. Titles of recent articles about prostate cancer are listed below followed by a link to the Us TOO web page that provides access to the full text.

Us TOO is expanding the impact we have on the prostate cancer community through a **new alliance with the Patient Access Network (PAN) Foundation**, a 501(c)3 organization dedicated to providing help and hope to underinsured patients who are unable to afford the out-of-pocket expenses for their prescribed medications. When PAN funding is available, **eligible prostate cancer patients who qualify can receive up to \$12,000 per year in financial assistance from PAN**. Us TOO will follow-up with all PAN recipients who are interested in receiving information about the prostate cancer educational resources and support services provided by Us TOO at no charge. **For more information [CLICK HERE](#)**.

Remember that Thursday, February 9, is the deadline to nominate an outstanding volunteer in the Us TOO support group network for an Edward C. Kaps Hope Award. This award is given to those who have shown exemplary, dedicated service in helping prostate cancer survivors and their families. **[CLICK HERE](#)** for all of the details.

The spouses, partners, family members and friends who are caring for a loved one with cancer provide an invaluable service that presents unique challenges. To help address and support the needs of caregivers for those living with Stage 3 or Stage 4 cancer of any type, as well as bereaved caregivers, the Answer Cancer Foundation hosts a **virtual support group conference call for caregivers twice each month:**

1st Tuesdays at 7pm EST/EDT (US)
3rd Tuesdays at 8 pm EST/EDT (US)
[CLICK HERE](#) for call-in information.

Caregivers of a patient with Stage 1 or Stage 2 cancer who are interested in support services specific to their situation can receive information by sending an email to info@ancan.org.

“AnCan” also hosts monthly virtual support group conference calls specific to helping [prostate cancer survivors](#). [CLICK HERE](#) for schedules and details.

[PCa Blue](#), a 501c3 charitable organization providing prostate cancer education, will soon launch a national campaign that connects blues music and blues musicians with the prostate cancer cause (blue is the cause color for prostate cancer). [Featuring blues legend Buddy Guy and The Sons & Daughters of The Blues Revue](#), the campaign will include a series of [local blues concerts](#) that will also deliver the important prostate cancer messages of early detection, treatment options, advanced stage cancer, side effects, and caregiver support to help men learn the facts in a friendlier environment. Us TOO will be one of several prostate cancer nonprofit beneficiaries of donations generated through PCa Blue.

[Buddy Guy has provided a signed polka dot Stratocaster guitar to be raffled off to benefit PCa Blue](#). Each \$35 donation made online at <http://pcablue.org/donate/> generates one raffle entry. The raffle is open until February 14. The winner of the guitar will be announced during the live stream of a concert at Buddy Guy’s Legends in Chicago on February 15. We invite you to check out the free online live concert and encourage you to support the cause by purchasing raffle tickets!

NEWS YOU CAN USE ARTICLES:

Headlines for this month’s prostate cancer News You Can Use articles are as follows.

[Links to the full text of each article are available at:](#)
