Thanks for Giving!

We recognize and thank the countless number of volunteers, donors and sponsors who help Us TOO help others by providing educational resources and support services for the prostate cancer community at no charge. Together we’re making a difference by helping those affected by prostate cancer make informed decisions to eliminate or manage the disease, minimize side effects of treatment, and maximize quality of life.

Every time you attend an Us TOO support group meeting and discuss prostate cancer with survivors and those being treated, you can learn something new. That is an opportunity to pass on ideas and suggestions and also impart information that you have learned to the newly diagnosed looking for help.
- Harvey Druv

I have a favorite quote which goes like this. “People will probably forget what you said and probably not remember what you did, but they will never forget how you made them feel”. When we end our support group meetings, we all feel better than when we came. Doctors can perform surgery or other treatment but it is the members who help us all heal.
- Don Traupler

A majority of the members are cancer survivors (including myself) and we mutually support one another as we cope with having cancer. I enjoy the comradery. I have known and been with some of these men and their wives for 16 years. It is like having an extended family.
- Richard Nesbitt

My grandfather lost his battle 7 years ago. Being involved with the SEA Blue event not only allows us to keep Pa’s memory alive while helping to raise funds and awareness for the fight against prostate cancer, but also helps teach our children the importance of giving back and helping others. Us TOO is very dear to our hearts.
